Business Solution: QUESTIONS & ANSWERS:

The constant river of questions and challenges that your business faces daily can be exhausting. But where there is a stream of answers? Soweto Digital Copiers — **The New Kid In The Block** of office automation — can calm those rushing waters with an array of innovative solutions. We'll work with you and your company to help enhance its efficiency, collaboration and productivity – and have it riding the waves confidently into the future.

Print Management Software & Solutions:

MANAGE, CONTROL AND MONITOR YOUR PRINT OUTPUT

Control the cost of printed or copied output and provide advanced security to ensure that sensitive documents do not fall into the wrong hands. Konica Minolta's Print Management solutions and software also help reduce document waste with simple integration to existing networks and lessen the workload of busy IT administrators. Monitor, track, and manage your business' printing with the print management software provided by Konica Minolta.

Our goal: is to provide the flexibility that lets users print what they need when they need it without disrupting their workflow. You also need to reduce the costs and complexities of deploying a print infrastructure. And you must do this while providing the added layer of security to help comply with regulations set forth in all verticals.

Konica Minolta's print management solutions include Rules Based Printing,

Secure Follow You Printing, and mobile printing from phone, tablet or iPad. Our solutions include cost allocation by user or department, all using the same authentication methods used to log into their computer, mobile device or building access including IC cards. The Print Management solutions we offer are designed to meet the specific needs of your organization and are scalable from SMB to enterprise customers with offices around the globe. Whether your users are local, mobile or around the world, Konica Minolta can provide the solutions to meet your printing needs.

For an efficient corporate print and scan infrastructure, Konica Minolta's Dispatcher Suite can help you manage printing costs while increasing your document workflow productivity and security.

Consider these benefits for your printmanagement solutions

Cost control:

Reduce your paper purchasing costs and printing and storage fees to incur immediate savings.

Security and Convenience:

Stop prying eyes from viewing documents and enjoy the convenience of simple management to achieve this.

Support Green Initiatives:

Save lots of trees and satisfy many more of your “green” initiatives that will make both your employees and planet feel good.

IT Simplification:

No need to create complex programming for your computer network to benefit from effective paper management solutions.

Simplified User Experience:

Network users will appreciate the easy-to-use process that benefits both them and your business.
